MEMORANDUM FOR:

[REDACTED]  
Director, Intelligence Community Staff

25X1

VIA:

[REDACTED]  
Chief, Administrative Staff

25X1

[REDACTED]  
Director, Office of Imagery Collection and Exploitation

25X1

FROM:

[REDACTED]  
Director, Office of Assessment and Evaluation

25X1

SUBJECT:

Proposed TDY Travel to Offut Air Force Base [REDACTED]

25X1

1. Action Requested: That you approve TDY travel to the Strategic Air Command, Offut Air Force Base, Omaha, Nebraska, on 5-6 April 1982 for the following individuals:

25X1

2. Purpose of Visit: The Air Force has agreed to brief us on the results of their [REDACTED] (softcopy system) utility tests. It is especially important for us to discuss these results with them for the following reasons:

25X1

a. They are the only softcopy utility tests that will be completed before the FY 1984 program and budget review. [REDACTED] Phase I system will not be operational [REDACTED] until mid-summer. Test data are not likely to be available until year's end. However, we understand that funds for Phase II procurement will be part of the FY 1984 budget requests.

25X1

b. The testing at SAC was designed to simulate direct support command exploitation in addition to national exploitation. The differences (in types of reports, level of PI experience, and so forth) are essential to assessing the utility of softcopy systems to the U&S Commands.

c. Based on information gathered at SAC and during discussions already held with NPIC  OA&E will update last year's Softcopy Issue Paper for possible use during the FY 1984-1988 program and budget review. The paper will, of course, be fully coordinated with OICE.

25X1

3. Recommendation: That you approve this TDY travel.
